DETAILED ACTION

Drawings

1. Figures 1-4 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

2. Claims 1-7 are objected to because of the following informalities: regarding claim 1, there must be only one period "." Which is at the end of the claim; therefore, the recitation "the mixer output. The local oscillator signals" at lines 6-7 should be changed to --the mixer output, the local oscillator signals--. Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As to claim 1, the preamble calls for a method claim, but the body of the claim has a structure of an apparatus claim. Therefore, the claim is indefinite. In order to overcome the above rejection, it is suggested that the recitation "A method for a subharmonic mixer design comprising of" at line 1 should be changed to -- A subharmonic mixer comprising of--.

As to claims 2-7, the recitation "The method" at line 1 should be changed to --A mixer--.

Allowable Subject Matter

5. Claims 1-7 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

As to claim 1, Khoury (5,532,637) and Forgues (5,999,804) disclose mixer circuit having a first set of four switches and a second set of four switches (see Khoury, figure 4 and Forgues, figure 3). Khoury and Forgues, however, alone or in combination, fails to disclose or render obvious the connections of the mixer as specified in the claim.

None of the other cited references (Manku, US 6,639,447; and Su, 6,999,747) cures the above deficiencies in Khoury and Forgues.
